27 September 2019	Indonesia – Jakarta
20 November 2019	Singapore
13 December 2019	Malaysia

The Strong Interest Inventory® is the one of the most respected and widely used career planning instruments in the world and it has been used extensively in the education sector and in organizations. It guides students and individuals in their search for a rich and fulfilling career by revealing their interest patterns through a range of complementary scales which include General Occupation Themes, Occupational Scales and Personal Style Scales. Built on psychologist John Holland's theory, it's backed by more than 80 years of research into how people of similar interests are employed, and what motivates individuals in the workplace.

It is a valuable tool for counsellors working with students exploring career options and subject choices; for career counsellors, HR professionals or coaches working with working adults during career transition or placement to understand and explore various career options.

Applications of the Strong Interest Inventory® include Career Exploration, Leadership and executive coaching and Talent Retention.

Course Details

The Strong Interest Inventory® certification enables you to provide your clients, students or employees with dynamic career direction and insight into options that align with their interests and abilities. For a school counsellor, certification provides tools to help students choose a major and explore career options. For a career coach, certification delivers an additional tool for helping clients with professional development, employee engagement, and reintegration into the workplace.

In addition, it can empower professionals to help students looking for enriching extracurricular activities and adults seeking to broaden their interests.
